## **INVITATION FOR OFFER - SOUTHERN GREEN CANYON CRUDE**

**IFO No. 1435-02-05-RP-25889**

**TERM: May 1, 2005- May 31, 2005**

### **Introduction**

The Minerals Management Service (MMS) is soliciting offers from pre-qualified companies for the purchase of all or part of MMS' royalty crude oil in the properties listed on the Exhibit. MMS intends to sell the identified production as an outright sale.

### **General Offer Specifications**

#### **Quantity and Quality**

All or a percentage of MMS' royalty interest (12.5% of lease production) from the properties identified on the Exhibit. Volumes may vary according to production capabilities and operating conditions.

Offerors are requested to include a minimum and maximum volume for which an offer price applies. Simply tell us what volume you will accept at the price you provide in your offer. Offers received without a stated maximum total volume will be assumed to have no limit on the volume awarded. MMS will make awards based on a percentage of MMS' royalty interest.

Offers for the crude should be based on common stream gravity and sulfur delivered into the inlet of Cameron Highway Offshore Pipeline System (CHOPS) onshore delivery points as shown in the Exhibit.

#### **Treating, Transportation and Other Production and Marketing Costs**

The buyer is responsible for transportation and other costs at and beyond the sales point, including applicable terminal fees.

#### **Delivery**

MMS will make delivery at the inlet of CHOPS onshore delivery points. The successful offeror(s) will notify MMS by noon MST on April 15, 2005 as to the delivery point(s) where MMS should nominate the royalty oil for the entire delivery month.

Title to and risk of loss in the crude oil shall pass from MMS to the successful offeror(s) as the crude oil enters the onshore delivery point. Measurement will be via mutually agreed meters.

#### **Term**

May 1, 2005 through May 31, 2005.

### Offers

Offerors must submit offers as an increment or decrement from any offer basis. Please indicate the offer basis you are using in the Exhibit.

The successful offeror(s) will make appropriate quality adjustments to their payment to match the actual gravity and sulfur of the delivered royalty oil by using the applicable Mars GravCap tables. The quality adjustment will be based on the difference between the gravity and sulfur shown on the Exhibit and the actual gravity and sulfur delivered.

### Documentation

Successful offerors will provide MMS with pipeline statements within 2 days after the documents have been made available. Pipeline statements should be sent to [rik.project@mms.gov](mailto:rik.project@mms.gov).

### Offer Deadlines

The Exhibit is the offer sheet to be completed and faxed or emailed. Offers must be made to the nearest \$0.0001. MMS will confirm receipt of all offers.
